

SILVER EDITIONS 2011 BOUABANE - O'BYRNE - SNOW

Kotama Bouabane, *Bridge*, 2010

Michael Snow, *Solar Breath (Northern Caryatids)*, 2002

Michelle O'Byrne, *English Silver*, 2011

Gallery TPW is thrilled to announce the release of Silver Editions 2011, a limited edition portfolio featuring photographs by three Canadian artists: **Kotama Bouabane**, **Michelle O'Byrne** and **Michael Snow**.

Silver Editions 2011 brings together a trio of images that are equal parts visually seductive and formally inventive. Though the works are produced by a diverse group of artists, each at very different stages in their careers, all three demonstrate a parallel engagement with the terms of photographic representation and a willingness to test the limits therein. The images are playful, visually pleasing and deceptively simple in their construction. And yet each one also offers up a challenge to the very terms of the photographed image. They take aspects of representation to task, toying with framing, flatness and form in a way that is deeply engaging and intellectually challenging. It is a wonderful collection of images and TPW is excited to present it to you.

Silver Editions 2011 is produced in an edition of 23 with only 20 sets available for sale at the introductory price of **\$1,250** per set. Each portfolio contains three unmatted images on 22" x 17" photographic paper. The archival quality photographs are printed by **Circuit Gallery** under the supervision of the artists. The ink and paper combination have a display permanence rating of over 200 years. Each image is accompanied by a signed and numbered certificate of authenticity.

More information about the artists and larger views of the collection can be viewed online at www.gallerytpw.ca.

Silver Editions 2011 is the sixth collection in the series. The images have been generously donated by the participating artists to support Gallery TPW, a non-profit artist-run centre and registered charity. All proceeds go to support Gallery TPW's operations and programming.

Gallery TPW would like to thank the three artists for participating in this project and acknowledge the support of Dr. Kenneth Montague, Superframe, Circuit Gallery as well as the artists' dealers.
